

NOTICE: Claim Submission Requirements

Dear Providers,

Where should Providers send their Claims?

All providers are recommended to submit claims/encounters electronically. Electronic billing ensures faster processing and payment of claims, eliminates the cost of sending paper claims, allows tracking of each claim/encounter sent, and minimizes clerical data entry errors.

If you need assistance in setting up EDI transactions, please contact your clearinghouse directly and provide the Payer ID #s below.

You may also contact Steward Health Choice EDI Clearinghouse, Change Healthcare, directly by phone at 877-469-3263 for additional assistance.
