Out of the Maze - Mental Health Resources, Information and Services to Improve Health and Well-Being, \$25.00 – Sponsorships and Scholarships are available!

Navigating health systems can sometimes feel as if you are walking through a maze. Access to these systems and information is important for everyone. There is also the need for the community to come together to reduce stigma, share an understanding of mental health, and learn how to support one another. This is the theme of our 2022 conference - Out of the Maze. Throughout this one-day virtual event, you will gain insight into the work that is being done to increase mental health literacy and the systems working together to positively affect mental health outcomes.
